ISCD CERTIFIED CEREC TRAINERS COURSE

International renowned speakers as well as members of the Product Management of Dentsply Sirona make sure that you will be on the edge of tomorrow's knowledge.

24 years ago the first ISCD Certified CEREC Trainers Course took place in Berlin, Germany. CEREC trainers from the United States, Canada, Australia, Sweden, United Kingdom and Germany gathered for the first of many more "Train the Trainer" courses. Objective has always been to get updated not just in the CEREC method but also in ways to train fellow dentist most effectively in the proper use of the system, including updates in software, hardware as well as in adhesive dentistry. More than 500 dentists have been certified in the meantime, many of whom return for recertification every other year.

LETS MEET IN BERLIN GET ISCD CERTIFIED!

DS CLOUD APPLICATIONS & NEW MATERIALS

This year's course will also recognize all the additional advancements that have been made in the meantime, especially the new cloud solutions from Dentsply Sirona, the 3D printing solution as well as the all-new Tessera ceramic.

DENTISTS ONLY & GUESTS

Because of the nature of the course only practicing dentists can participate in the ISCD Certified CEREC Trainers Course and become an ISCD Certified Trainer or renew their certification. CEREC sales representatives can also participate in the course as guests (without being able to become certified). Before you fill out the application form please consider that you need to have a broad understanding of the CEREC method.

CASE PRESENTATION & OTHER REQUIREMENTS

Your application will be reviewed by the educational committee of the ISCD within 10 days of your submission, upon which you will be invited to join us for the next ISCD CEREC Trainers Course. You need to attach a case presentation of a CEREC case that was treated by yourself and submit the case together with the corresponding .rst file via internet. If you are a practicing dentist and have already successfully participated in an earlier ISCD Certified CEREC Trainers Course you will be admitted without further reviewing. Participation in the course and passing a final written exam (with more than 60% correct answers) at the end of the course will grant you an "ISCD Certified CEREC Trainer" status for the next two years.

GREAT BONUS FOR UPDATERS

All participants need to attend the full two days. Those who have already successfully attended in either the ISCD CEREC Trainers Course in Berlin (2018) or Singapore (2019) will receive a substantial rebate on the course fee.

Kind regards,

Bernd Reiss
Secretary General

Olaf Schenk
Trainer Course Coordinator

THERE WILL BE A LIMITED ROOM BLOCK FOR ITC PARTICIPANTS

Limited room block for participants available.
